

Hey Girls!

Have a great time and **STAY SAFE!**

- * If you drink, be aware and alert of your surroundings and the people around you.
- * In order to say NO and protect yourself from harm, you must be conscious.
- * Stay responsible for your safety.
- * Don't depend on your friends to keep you safe – particularly if all of you are partying.

**Do not allow yourself
to become a victim of dating violence.**

One bad decision can last a lifetime.
Bad decisions and bad events DO happen
when you become impaired.
